ALABAMA STATE SENATOR ROGER BEDFORD SECURES $655,000 FUNDING FOR SEWER IN THE VINA INDUSTRIAL PARK

VINA, AL, JUNE 21ST, 2010: State Senator Roger Bedford announced today that funding has been secured to extend sewer into the Vina Industrial Park located on State Highway 19. "It is very important to prospective industries looking to locate in an industrial park that all utilities are in place. This is a huge step toward that goal," said Senator Bedford. The Vina Industrial Park is the largest in the county with 400 acres and is located only eighteen miles from the new Interstate 22. D. W. Franklin, Mayor of the Town of Vina stated, "we have a good industrial park here; unfortunately, we are often eliminated before we even have the chance to compete due to the lack of sewer service." Mitch Mays, Executive Director of the Franklin County Development Authority stated, "I am very pleased that sewer is going to be extended to Vina. As a whole, Franklin County has made great strides in the improvement in infrastructure to support industry. Sen. Bedford has always been a strong supporter of industry and this is a great demonstration of his continued support." Funding for the sewer project was secured through the Alabama Bond Commission, on which Senator Bedford serves as a member.
